HOME IS WHERE YOUR HEART IS

My address .

This is my house. It is located at the corner of [redacted] surrounded by big trees and bushes. It is very big with many rooms and an attached garage. We lived in Des Moines one year ago at Woodland Avenue. We have been living in this beautiful house since the month of November. We are eight family members living together. Since 2009, it is fun to be together during weekends to share our job experiences and many more activities that all the family members have been doing during that time. I like this house because it brought us all together under one shelter where we can really love and care for each other. My house is well decorated with indoor plants and other interior decoration. Wow! I could hear the beautiful sound of chirping of the birds and squirrel running around which reminded my house in India. I could smell Indian dishes especially when my sister cooks in the kitchen like.. chicken curry, Rice, cooked vegetables, porridge etc. I feel happy when I pet my kitty called "Sandy".

I love my house more than anything else.
