My city is a place with large, beautiful churches, wonderful gardens and people from every world, it's a cosmopolitan city.

The most famous place in Morelia is the candy factory; the sweet smell is wonderful when you go to through the candy market. The night is full of colored lights in the buildings, the churches, the government palace, the gardens and everywhere.

My house is in a small group of houses in the outskirts of the city. Is a beautiful and quiet place full of palms and gardens.
