### Home is Where the Heart is

I would like to describe my home to everybody. I've been living in this house for 9 months, but I'm not spending much time at home. My favorite place in my house is the kitchen. After I get home from work, I come to the kitchen and make dinner. It is very great, with two big mirror windows, so I can see the back yard with flowers. I like to stand in there to cook with my aunt. Her food smells very good. I'm eating very well. I always take time to enjoy my food. Next to the kitchen is the living room. I can watch movies in there and I also have karaoke. When I have time I like to sing because my dream is to be a famous singer. Every weekend, everybody comes here and we have family dinner. I'm very happy because I can live in a big house. My house in Viet Nam is so small. I live here with my aunt and I wish my parents would be here with me and enjoy their life.
