

**Sociology 110 - Intro to Sociology - Final Exam - Study Guide**  
**Chapters 21, 22, 23, 24**

Social Change	Conventional crowd
Determinants of social change	Mob
Evolutionary theory	Demography
Types of social movements	Demographic transition theory
Innovation	Crude birth rate
Invention	Crude death rate
Diffusion	Fertility (factors)
Acculturation	Mortality
Discovery	Migration – Immigration, Emigration
Collective behavior	Life expectancy
Social movement	Zero population growth (ZPG)
Crowd	<u>*Malthusian theory of population (3 parts)</u>
Audience	Positive checks
<u>*Fads</u>	Preventive checks
<u>*Fashions</u>	Cohort
Rumor	Population pyramid
*Panic	Profile of U.S. population
<u>*Mass hysteria</u>	Characteristics of urban areas
Craze	Concentric Zone theory
Public	Sector theory
Public opinion	Multiple-Nuclei theory
Le Bon's contagion theory	Sex ratio
Emergent-norm theory	Suburb
Census	Acting crowd
Structural Conduciveness	Social effects of computers
Structural strain	Artificial intelligence
Generalized belief	green revolution
Precipating factor	Telecommuting
Propaganda	Emotional contagion
Techniques of propaganda	Casual crowd
Migration	Name calling
"Push" vs "Pull" Factors in Migration	Card stacking
Growth rate	Glittering generality
Types of Crowd behavior	Transfer
Riot	<u>*China's population policy</u>
Expressive crowd	metropolis

(over)

Fecundity	Preventive medicine
Life span	Crisis medicine
Gemeinschaft	Causes of death
Gessellschaft	Endemic disease
Megalopolis	Epidemic disease
Revolution	Acute disease
Urbanization	Chronic disease
Theories of Social Change	Baby Boomers
Cyclical Theory of Social Change	Generation X
Conflict Theory of Social Change	Health Maintenance Organization (HMO)
Health	Medicine in China
Causes of death (U.S.)	Medicine in Canada
Epidemiology - AIDS	Ecology
AIDS - symptoms, transmission, prevention	Natural environment
Medicine	Environmental deficit
Holistic medicine	Disposable society
Hippocratic model	Acid rain
Greenhouse effect	Rain Forest
Recycling	Alternative medicine - Types
Biodiversity	Contagious disease
Germ theory	Medicine in Russia
Genital Herpes	Illness
Sick role	Causes of Death in U.S.
Physician role	Curative Medicine
Syphilis	Disease
Socialized medicine	Sickness
Euthanasia	Medicine in Sweden
Gonorrhoea	Medicine in Great Britain
Modernity	Race and Health
<u>*Char. of modern societies</u>	Gender and Health
Char. of traditional societies	Gossip
Functions of medicine	Deprivation theory
Medicalization of society	Direct fee system
Ergonomics	Defensive medicine
<u>*Health Care Costs in U.S.</u>	Disaster – Natural, Technological
Theories of social movements	Urban legend
<u>*Longevity - factors</u>	Causes of Obesity

Zero population growth

Logic fo growth
