UNIT 1

Windows 10 Basics

Chapter 1: Getting Your First Look	3
Logging In to Windows	5
Passwords	5
What Happens During the Startup Process?	5
The Windows 10 Desktop	7
Basic Computer Components	8
Start Button	10
Icons	10
Notification Area	11
Network Connection	11
Using a Mouse	11
Mouse Motions	12
Passwords and Account Settings	14
Accessing Account Settings	14
Signing Out and Switching Users	15
Switch Users	16
Locking the Computer	16
The Start Menu	18
Commands	18
Most Used Apps List	21
Live Tiles	21
Sizing Live Tiles	22
Turning Off Live Tiles	23
Pinning Commands to the Start Menu	24
Moving Tiles on the Start Menu	24
Shutting Down	26
Shut-Down Methods	26
Sleep	27
Shut Down	27
Restart	27
Self-Assessment	30
Skill Builders	31
Try This at Home	33

Chapter 2: Starting and Controlling Apps	37
Controlling App Windows	39
Quick-Sizing Buttons	39
Moving and Resizing App Windows	42
Touch Controls	45
Touch Gestures	46
Touchpad Controls	46
Working with the Taskbar	47
Notification Area	47
Pinning and Unpinning Apps	48
Action Center (Notifications)	50
Notifications	50
Actions	52
Multitasking	53
App Switching	54
The Flip Command	56
Show Desktop and Task View	58
The Usefulness of Multitasking	59
Self-Assessment	60
Skill Builders	61
Chapter 3: Creating an Online Account	65
Why Online?	67
The Cloud	67
Office for the Web	67
Creating Your Microsoft Account	68
Account Verification	68
Making Connections	71
Logging In to OneDrive and Office for the Web	72
Online Messages	73
Always Logged In	76
Opening Microsoft Office for the Web Apps	76
Self-Assessment	79

Chapter 4: Working with Apps	81
App Commands	83
Menu Commands	83
Commands in Programs with Ribbons	85
Saving Your Work	87
Where Your Work Is Located	87
Files and Folders	88
Choosing a Storage Location	88
Filenames	89
Save Versus Save As	90
The Work Area	93
Mouse Pointers	94
Tool Galleries	94
Scroll Bars	97
Typing with the Word Online App	99
Word Ribbon	99
Simplified Ribbon Mode	100
The Cursor and the Mouse Pointer	101
Special Keys on the Keyboard	101
Editing Text	103
Selecting Text	103
Formatting Text	105
Printing a Document	107
Saving as a PDF File	108
Cut, Copy, and Paste	110
Keyboard Shortcuts	111
Advanced Cut, Copy, and Paste	111
Self-Assessment	114
Skill Builders	115
Chapter 5: Using Email	119
What Is Email?	121
How Does Email Work?	121
Email Address	122
Outlook.com	122
The Outlook.com Screen	124
Sending Messages	125
Address Line	127
Subject Line	127
Writing Your Message	128
Attachments	130
Receiving and Replying to Messages	132
Replying	133
Deleting	134

Saving Emails	135
Creating and Deleting Folders	135
Moving Emails	137
Saving Email Addresses	139
Email Safety	139
Understanding the Threats	140
Protecting Yourself	143
Deleting Spam in Outlook.com	144
Self-Assessment	145
Skill Builders	146

UNIT 2

File Management

Chapter 6: Finding Files	155
About Storage Media	157
Types of Storage Devices	157
Viewing Storage Drives	159
Drive Designations	160
Plugging In and Unplugging a Flash Drive	161
File Explorer	163
Common Folder Window Tasks	163
Locating Folders	164
Navigating Your Drives and Folders	164
The Address Bar	165
The Back and Forward Buttons	167
Units of Measure for Computer Storage	168
The View Tab	169
Identifying the Contents of a Folder	171
The Folders Pane	172
Searching for Files	175
Self-Assessment	177
Skill Builders	178

Chapter 7: Storing Files	181
Creating Folders	183
Creating New Folders	183
How Files Are Stored in Your Computer	184
Renaming Files and Folders	186
Creating Subfolders	188
Moving and Copying Folders and Files	190
The Cut, Copy, and Paste Method	190
How the Commands Work	191
The Drag-and-Drop Method	194
Selecting Multiple Files	196

Deleting and Restoring Folders and Files	198
The Recycle Bin	198
Deleting Folders and Files	199
Restoring Folders and Files	199
OneDrive File Storage	201
Creating OneDrive Folders	202
Navigating Between Folders	204
Uploading Files to OneDrive	205
Downloading from OneDrive	206
Self-Assessment	208
Skill Builders	209

UNIT 3

The Internet and More

Chapter 8: Using the Internet	215
The Internet	217
The World Wide Web	217
Equipment Used to Connect to the Internet	218
Connection Types	220
Web Browsers	222
Uniform Resource Locators (URLs)	223
Basic Navigation	225
Hyperlinks	226
Tabbed Browsing	227
Working with the Hub	229
Printing a Web Page	230
Favorites	231
Favorites Bar	233
Creating Folders in Favorites	236
Removing Favorites	237
Reading View	238
History	240
Downloads	240
Books	240
Self-Assessment	241
Skill Builders	242
Try This at Home	245

Chapter 9: Researching on the Internet	247
Performing a Basic Web Search	249
How Search Engines Work	249
Basic Search Techniques	249
Improving Your Search Results	252
The World of Search Engines	253
The Hidden Web	254
Difficult Searches	254
Searching for Images	255
Creating Web Notes in Edge	256
Web Notes Tools	257
Saving Web Notes	258
Sharing Web Notes and Web Pages	259
Defending Yourself from Web Threats	260
Threats While Surfing	260
Protection Software	260
Using Social Media Sites Safely	261
Steps You Can Take	263
Self-Assessment	264
Skill Builders	265
Chapter 10: Using Settings and Help	271
Searching Windows and the Web	273
Choosing a Search Link to the Internet	275
Getting Help	276
Say “Hey” to Cortana	276
Using Settings	277
Settings vs. the Control Panel	279
Controlling the Screen	280
Screen Resolution Settings	280
LED Monitors and Aspect Ratios	281
Changing the Background Image	283
Power Options	283
Battery Saver	284
Power & Sleep	284
Additional Power Settings	286
Windows Update	287
The Trend Toward Automatic Updates	289
The Store	290
What’s in the Store?	290
Downloading Apps	292
Self-Assessment	294
Skill Builders	295
Try This at Home	297
Glossary	301
Index	303
