MACC Libraries is excited to announce that the 2019-2020 One Book, One College, One Community read is *Spare Parts* by Joshua Davis.

*Spare Parts* tells the story of four young men at an underfunded public high school who go on to win a prestigious robotics competition.

One Book selections encourage the campus community to join in a shared reading experience that includes book discussions, guest lectures and other activities that connect students and faculty. The One Book selection is chosen for both an exciting reading experience and by its appeal across disciplines.

“*Spare Parts* is a story that will make you laugh and cheer and cry. It is a story about living in the margins of the educational and socio-economic systems in our country. It is about what it means to be an American,” says Rebecca Funke, Director of Library Resources.

Oscar Vasquez, one of the four students featured in the book, will speak on campus October 30. An engineer, Army veteran and business analyst, Vasquez is a passionate advocate on behalf of expanding STEM opportunities for underrepresented youth. Preview copies of *Spare Parts* are available for instructors - to request a copy, contact Rebecca Funke or your campus librarian. If you use the book in your course, copies will be provided free of charge.
