

Biotechnology

Animal Science, AAS

The Biotechnology Associate in Applied Sciences (AAS) degree has four areas of concentration: Agronomy Concentration, Biomass Concentration, Animal Science Concentration and Greenhouse Production Concentration.

The Biotechnology—Animal Science, AAS degree is designed to prepare students to work in agricultural industries and research laboratories. Technicians may work in the areas of laboratory research, nutritional product development, quality control, manufacturing and testing. Specific career opportunities could require skills related to laboratory development of feed additives that impact the health and development of animals, formulating livestock rations and identifying common diseases. The degree is structured to allow students to develop marketable job skills, while incorporating the requirements for an Associate in Applied Sciences degree. The program includes many hands-on and lab-based courses, which enable students to apply what they learn in biology, microbiology, horticulture, genetics, chemistry, statistics and molecular biology. Specific skills such as written and oral communications, critical thinking, problem solving, computer skills and small group collaboration are an integral part of the program. Students participate in internships in cooperation with potential employers.

Students start Fall or Spring semester.

Program Entry Requirements

Program Entry Requirements

1. Complete an application for admission to the Biotechnology Program.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Must submit proof of one year of high school chemistry or Academic Achievement Chemistry I & II or successful completion of CHM 122.
5. Must submit proof of two years of high school algebra or MAT 063 & MAT 073.
6. Demonstrate satisfactory writing skills on college entrance or assessment exam.

Location: Ankeny (Selected courses in this program are offered at other campuses.)

Graduation Requirements

To earn a Biotechnology AS degree, a student must be accepted into the Biotechnology Program, complete all coursework as prescribed and maintain a 2.0 grade point average.

To complete this program, you must meet the Diversity Requirement with a grade of "C" or higher. See the AS section of the website for more information about which courses can count toward this requirement.

Requirements for the Animal Science AAS Degree

SEMESTER 1

- ▶ SDV 10.....The College Experience Credits: 1
- ▶ ENG 105.....Composition I..... Credits: 3
- ▶ BIO 112.....General Biology I..... Credits: 4
- ▶ AGS 113.....Survey of the Animal Industry..... Credits: 3
- ▶ AGS 242.....Animal Health..... Credits: 3

SEMESTER 2

- ▶ BIO 113.....General Biology II..... Credits: 4
- ▶ AGS 319.....Animal Nutrition..... Credits: 3
- ▶ AGS 323.....Animal Nutrition II..... Credits: 3
- ▶ AGB 235.....Intro to Agricultural Markets..... Credits: 3

Option 1—Select 1 course

- ▶ CHM 122*Intro to General Chemistry..... Credits: 4
- ▶ CHM 165.....General/Inorganic Chemistry I..... Credits: 4

SEMESTER 3

- ▶ MAT 157.....Statistics..... Credits: 4
- ▶ BIO 186.....Microbiology..... Credits: 4

Option 2—Select 1 course

- ▶ AGS 225.....Swine Science..... Credits: 3
- ▶ AGS 226.....Beef Cattle Science..... Credits: 3

SEMESTER 4

- ▶ ENG 106.....Composition II..... Credits: 3
- ▶ BIO 146.....Genetics..... Credits: 3
- ▶ AGT 120.....Agricultural Appl in Biotech..... Credits: 3

Option 3—Select 1 course

- ▶ CHM 132*Intro to Organic/Biochemistry Credits: 4
- ▶ CHM 175.....General/Inorganic Chemistry II..... Credits: 4

SEMESTER 5

- ▶ BIO 250.....Cell & Molecular Bio-Nucleic Acids Credits: 5
- ▶ BIO 251.....Cell & Molecular Bio-Proteins..... Credits: 5
- ▶ BIO 249.....Biotechnology Internship..... Credits: 2–3
- ▶ AAS Core Social and Behavioral Science/Humanities course..... Credits: 3

TOTAL CREDITS REQUIRED TO COMPLETE THIS AAS DEGREE 71

Note: Graduates of the Biotechnology—Animal Science AAS degree also qualify to be awarded the Agribusiness Animal Science Certificate and the Biotechnology Laboratory Methods Certificate.

* Students planning to transfer to a four-year program after completion of this degree should take CHM 165 & 175 instead of CHM 122 & 132.

Biomass concentration option is also available in semesters with a student cohort large enough to offer the specialized courses.
