While maintaining the user's reasonable right to privacy, monitoring can reveal information about a particular segment of the network or even an individual machine on the network. This information may include the amount of traffic being generated, and length of activity. Once certain conditions are met, such as abnormally high amounts of traffic or certain types of traffic, the IT Department will investigate further and perform an in-depth analysis of the situation. IT uses this information to identify and resolve problems throughout the network.

While noting the value and necessity of the services provided by IT, DMACC does have an obligation to respect the privacy of a user's file, electronic mail, and other electronic information. In turn, all computer users have the responsibility to use DMACC's computer resources in an efficient, ethical, and lawful manner consistent with the rules and regulations of the College. The ethical and legal standards that all users should maintain are derived directly from standards of common decency that apply to any public resource within the College and/or existing local, state or federal statutes.

1. Users must abide by all software licenses, copyright, and intellectual property policies and applicable local, state and/or federal laws.
2. Electronic communication is not to be used for the transmission of any information that violates existing local, state and/or federal laws.

3. Files controlled by individual users are considered private. Any non-file owner must obtain written permission from the owner to read, alter or copy a file. The ability to read, alter, or copy a file does not imply permission to read, alter or copy that file. This policy is not meant to restrict IT from its role of supervising the normal operations of computer systems, such as the restoring of backups or examining faculty computer behavior.
4. The Coordinator of Resident Housing or another designated College official may only read and/or copy a file:
 - a. Where ordered to do so by a court-ordered subpoena
 - b. When they have probable cause to believe that communication or computing systems have been compromised
 - c. When the issue involves possible local, state, and/or federal law violations
5. The College recognizes the right of the campus community to use electronic mail for personal/professional reasons. However, the computer networking system is not to be used for non-academic commercial endeavors without permission from the College.
6. Examining information, such as electronic mail or voice mail of others, for reasons not associated with the authorized and legitimate objectives of the College is a violation of established policy in this regard.

Residents who fail to comply with the standards of prudent, lawful computer use are subject to disciplinary action, including a fine, required removal of all computer equipment from the residence hall property, and even termination of the housing contract and eviction from the residence halls where appropriate.

Residents should understand the following:

1. DMACC may disconnect a resident's network connection at any time without notice to maintain the integrity of the network.
2. DMACC will attempt to maintain 24-hour operation of the network; however, there are times when the network will be unavailable. Efforts will be made to post notifications when such downtime is known in advance.
3. By using the network, there may be the possibility of transferring viruses or other malicious programs to personal computers. In using this wireless networking service, residents agree not to hold DMACC responsible for any damage resulting from being connected to the network.

DISCIPLINARY PROCEDURES

Investigation and Charge Procedures for Alleged Violations of Student Conduct

Residents (and their guests) are accountable to the DMACC Boone Student Housing Guidelines and the Student Conduct, Discipline and Appeals Procedure. Both documents will be taken into consideration when responding to housing-specific issues of student conduct. Housing-specific is defined as incidents occurring in or on the grounds of DMACC Boone Student Housing.

When an alleged violation occurs, housing staff or other complainant will document the incident in an incident report. All incident reports are forwarded to the Coordinator of Resident Housing (or designee) to review.

1. Upon the Coordinator of Resident Housing (or designee) receiving the incident report, they will investigate and review the incident to determine whether an informal resolution is possible or whether formal charges should be instituted.
2. Following the period of investigation the Coordinator of Resident Housing (or designee), in consultation with the Judicial Officer, will determine if evidence exists for formal charges to be brought against the student for a violation of either the Student Housing Guidelines or the Student Code of Conduct, or both.
 - a. If the charges are of a minor nature (suspension is NOT warranted) the case will be heard at a disciplinary conference before the Coordinator of Resident Housing (or designee).
 - b. If the charges are of a major nature (suspension is warranted) the case will be heard by the College Judicial Officer. If expulsion is warranted, the case will be referred to the Office of the President.
 - c. If there is a lack of evidence or formal charges are not deemed necessary, an informal resolution may be sought. If an informal resolution is made, the student signs a letter from the Coordinator of Resident Housing stating the terms of the resolution and indicating his/her consent to these terms.
3. If it is determined that formal charges should be brought, the Coordinator of Resident Housing (or designee) shall send to the student involved a Notice of Charge/Hearing letter.

The complainant may be asked to provide additional written or oral testimony and will have the right to be informed of the final outcome of the disciplinary process.

Hearing Procedures for Alleged Violations of Student Conduct

Disciplinary Conference Procedures

Alleged Housing violations that are of a minor nature (those that do not warrant suspension) will be adjudicated in a disciplinary conference between the student and the Coordinator of Resident Housing (or designee). No other witnesses will be present. Alleged violations of the Student Code of Conduct will be reported to and adjudicated by the DMACC Judicial Officer.

1. The Coordinator of Resident Housing (or designee) will send to the student involved a Notice of Charge/Hearing.
 - a. The Notice of Charge/Hearing details the alleged violations of the student housing guidelines and/or student conduct code, a summary of the alleged misconduct, the student's rights, the time and date of a hearing, a copy of the Student Conduct, Discipline, and Appeals Procedure and the Rules and Regulations of the Boone Student Housing Guidelines.
 - b. The Notice of Charge/Hearing shall be placed in the student's mailbox, sent by registered mail to the student's last known non-DMACC address, or delivered in person with receipt acknowledged in writing by the student.
 - c. If the student charged cannot appear at the time specified, the student must contact the Coordinator of Resident Housing (or designee) at least two (2) business days before the hearing is scheduled to arrange a different time for the hearing.
2. If the student has not contacted the Coordinator of Resident Housing (or designee) and/or does not appear at the hearing, the Coordinator of Resident Housing (or designee) may make a decision of the student's responsibility or non-responsibility of the alleged violation and the resulting sanction.
3. At the disciplinary conference, the Coordinator of Resident Housing (or designee) will review the charges, evidence, and student's rights with the student. The student will have an opportunity to present any evidence or testimony on his/her behalf.
4. After reviewing the evidence and hearing from the student, the Coordinator of Resident Housing (or designee) will determine if the student is responsible or not responsible for the alleged violation.
5. Any student who is found to have violated the Student Housing Guidelines or the Student Conduct, Discipline and Appeals Procedure will be subject to the following sanctions:
 - a. Reprimand. Written censure by the College. This written warning serves to remind the student that further violation of the student conduct code may result in sanctions that are more serious. A record of the disciplinary action is kept in the student's disciplinary file.
 - b. Restitution. Reimbursement for damage to or appropriation of DMACC property. Written notice will be sent to the student requiring restitution when the student has damaged or misappropriated DMACC property. Reimbursement may take the form of appropriate service to repair or compensate for damages.
 - c. Fines. As specified in the DMACC Student Boone Housing Student Guidelines.
 - d. Conduct Probation. A period of review during which the student must demonstrate their ability to comply with the Student Housing Guidelines and the Student Code of Conduct, all DMACC policies, and other requirements stipulated

for the probation period including limitation of activity or access to College facilities.

- e. Educational Sanctions. A requirement to participate in a project, class, counseling, or other college/community sponsored activity that is relevant to the nature of the offense and appropriate for the violation at the student's expense.
6. The Coordinator of Resident Housing (or designee) decision as to whether a student is responsible for a student conduct violation and the appropriate sanction, if any, will be documented in a letter and sent to the student within five business days. The letter shall be placed in the student's mailbox, sent by registered mail to the student's last known non-DMACC address, or delivered in person with receipt acknowledged in writing by the student. This letter will include the reasoning by which the decision was reached. The action is effective upon the date the notification was written. A copy of the letter will be placed in the student's disciplinary file maintained by the Judicial Officer. Students have the right to appeal this decision to the Executive Campus Dean of the Boone Campus.

College Judicial Hearing Board Procedures

Alleged violations that are major in nature (those that may warrant suspension or cancellation of a housing contract) will be adjudicated by the College Judicial Officer. Please refer to Student Conduct, Discipline and Appeals Procedure for additional information on the College Procedures.

Appeal Procedures for alleged violations

The student may appeal the decision of the Coordinator of Resident Housing (or designee) first to the Executive Campus Dean of the DMACC Boone Campus, second to the VP, Operations.

1. Appeals by the student must be made in writing and delivered to the Executive Campus Dean of the Boone Campus (Appellate Officer) within ten (10) business days of receiving the decision. The notice of appeal shall contain the student's name, the date of the decision or action, and reasons for appeal.
2. The following constitute reasons for an appeal:
 - a. The student's due process rights were substantially violated in the hearing process.
 - b. There was not substantial evidence to support the decisions reached.
 - c. There is new material evidence that could not have been discovered at the time of the hearing.
 - d. The sanctions imposed were too severe or not appropriate for the violation.

A student's failure to appeal or comply with appeal procedures will render the original decision final. In the event of extenuating circumstances, an extension in time may be requested by submitting a written request to the Appellate Officer stating good reasons for the request for additional time.

Any sanction imposed as the result of a Disciplinary Conference or College Judicial Officer will remain in effect during the process of appeal. The Appellate Officer has the authority, under extenuating circumstances, to defer the imposed sanction while the appeal is in process. The Appellate Officer shall review the case file and, if available, the tape recording of the hearing. The Appellate Officer may then ask to meet with each party for a short oral summary of the arguments. The Appellate Officer may do one of the following:

- a. Affirm the original decision.
- b. Reverse the decision by finding no violation occurred.
- c. Remand the case for a new hearing.
- d. Remand the case for consideration of new evidence.
- e. Reduce the sanction.

The Appellate Officer's decision and reasons for the decision will be delivered to the student and the Coordinator of Resident Housing within five business days of receipt of the appeal. The letter shall be placed in the student's mailbox, sent by registered mail to the student's last known non-DMACC address, or delivered in person with receipt acknowledged in writing by the student. The Appellate Officer's decision is the final decision of the College.

Meningitis Information

What is meningitis? A rare, but potentially fatal, bacterial infection occurring in one of two forms: swelling of the membranes surrounding the brain and spinal cord, or the more deadly meningococemia, an infection of the blood. College students, particularly freshmen living in dormitories, have a higher risk of getting this contagious disease.

How does meningitis spread? It is transmitted through the air via droplets of respiratory secretions and direct contact with an infected person.

What are the symptoms? Symptoms include fever, severe headache, stiff neck, rash, nausea, vomiting, and lethargy, and may resemble flu. Because the disease progresses rapidly, often in as little as 12 hours, students are urged to seek medical care immediately if they experience two or more of these symptoms concurrently.

Who is at risk? Evidence has found students, particularly freshmen, residing in residence halls appear to be at higher risk for meningococcal disease than college students overall.

Who should be vaccinated? The Center for Disease Control recommends students, especially those 25 years of age or younger, who will be living in residence facilities be vaccinated.

Mumps Information

What are the mumps? An infection caused by the mumps virus.

What are the symptoms of mumps? The most common symptoms are fever, headache, and swollen salivary glands under the jaw. The disease can lead to hearing loss, aseptic meningitis (infection of the covering of the brain and spinal cord) and, in 20% to 30% of males who have reached puberty, the disease can cause painful, swollen testicles.

Who should be vaccinated? All individuals attending college should have two mumps (MMR) immunizations. The vaccinations are 95% effective.
