

Feeling lost in the maze of transfer information?

If so, take this new class...

SDV 165 Transfer Planning

1 credit elective

Course Description: This course provides students with the information, resources, and tools necessary to plan a successful transition from DMACC to a four-year college or university. Special emphasis will be placed on developing an individual transfer plan.

Topics include: selecting the best set of courses for transfer, deciding when to transfer, meeting major prerequisites, using articulation agreements & transfer plans, researching four-year colleges & universities, selecting a transfer college, getting connected with transfer advisors at the four-year colleges, identifying a general timeline for each step in the transfer process, keeping track of important deadlines, and preparing for the transition to the four-year college.

- **Offered at several DMACC campuses.**
- **See the Course Schedule or go online for registration details.**
- **For more information contact the course instructor at your campus.**
